Yiğit Arda Kıdıman

Software Engineering Student & Web Developer

yigitardakidiman@gmail.com • kidiman.com • linkedin.com/in/yigitardakidiman • github.com/yigitardakidiman

EDUCATION

OSTİM Technical University 09/2024 – Present
Bachelor of Science in Software Engineering Ankara, Turkey

- **Cumulative GPA:** 3.41 / 4.00

TECHNICAL SKILLS

Languages:	Python, JavaScript, TypeScript, C, HTML5, CSS3
Frontend:	React.js, Next.js, Three.js, Tailwind CSS
Backend:	Django, Django REST Framework, REST APIs
Tools & Databases:	Supabase, Git, GitHub, Vite, VS Code

EXPERIENCE & LEADERSHIP

Volinor Savunma ve Teknoloji A.Ş. 06/2026 – Present
Software Developer (Part-time: 07/2026 – Present | Intern: 06/2026 – 07/2026) Ankara, Turkey

- Built and maintained **Django REST API endpoints** for 3D model data management, product catalog listings, user authentication, and email services.
- Developed interactive 3D model showcase views on the web using **React and Three.js** for company product displays.
- Collaborated with team members using Git for version control, code reviews, and resolving bug reports.

Huawei Student Developers (HSD) OSTIMTech 10/2025 – Present
Head of Project Committee (10/2026 – Present) | Core Team Member (10/2025 – 10/2026) Ankara, Turkey

- Serving as **Head of Project Committee**, coordinating student software initiatives and organizing technical community events.
- Built a club management dashboard using **React and Supabase** to help 28+ core team members distribute and track club tasks.
- Supported event organization and technical coordination for an OSTIMTech hackathon with **60+ participants**.

FEATURED PROJECTS

GitFetch — README Generator [Live Demo] [GitHub] React, TypeScript, Tailwind CSS

- Created an open-source web application where developers can quickly design, customize, and preview interactive GitHub profile READMEs and export clean Markdown.

KıdıMusic Generator [Live Demo] [GitHub] TypeScript, JavaScript, CSS

- Built a web application that takes text prompts to generate custom music tracks with in-browser audio playback and easy file export.

Offline Local RAG Assistant [GitHub] Python, RAG, Local AI

- Developed an offline question-answering assistant using Python, Microsoft Foundry Local, and the RAG pattern for local document retrieval without internet connection.

CERTIFICATIONS & LANGUAGES

- **Certifications:** Python Programming (BTK Akademi), Web Development with HTML5 (BTK Akademi), Version Control with Git & GitHub (BTK Akademi)
- **Languages:** Turkish (Native), English (Intermediate - B1)
